Scenes from Bittersprings

Supplemental Image Pack for Starsmote Sandpit Scenario

“Scenes from Bittersprings” is a collection of supplemental images for the Sandcastle Table-talk Role Playing Game (TRPG) adventure scenario “Starsmote Sandpit.”

This image pack is intended primarily as a tool for the Game Master (GM). When playing “Starsmote Sandpit” the GM can show the players these images at the appropriate times to help them envision the scene unfolding in the game.

If players can refrain from looking at the images or reading the captions before playing “Starsmote Sandpit,” it will make the game more enjoyable.

But, the images do not contain critical information. Even if a player takes a peak before playing the scenario, there is no real in-game advantage to be

gained. Therefore, it is not against the rules for a player to enjoy this supplement as an art book before playing the scenario.
